EXCEPTIONAL QUALITY ● COST EFFECTIVE ● STANDARD LIGHT ● 2.8V ● RECHARGEABLE

TIMESCO
INSTRUMENTS FOR LIFE

Replaceable frosted 2.8v tungsten bulb providing bright, focused, illumination.

The bulb does not obstruct the view of the airway.

Rigid metal construction from fully autoclaveable, antimagnetic stainless steel.

Atraumatic distal end.

Fully autoclaveable metal blade, covered by a 5 year guarantee or 4,000 autoclaves, whichever is sooner. See website for full terms and conditions.

ISO 7376 standard light fitting compatible with reusable Orion handles.

3 metal ball bearings for secure fitting.

Orion blades are reusable, standard light blades with a removable bulb housed in the blade. They are fully autoclaveable and provide a low cost reusable blade system.

MACINTOSH

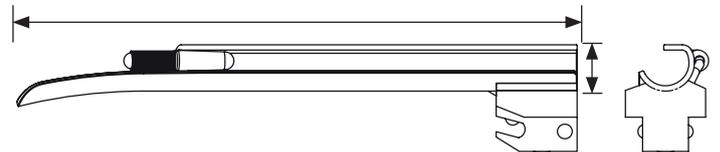

Product Code	Description	Measurements
2905.150.05	Orion Macintosh Blade Size 0	80mm x 22mm
2905.150.10	Orion Macintosh Blade Size 1	92mm x 27mm
2905.150.15	Orion Macintosh Blade Size 2	100mm x 26mm
2905.150.20	Orion Macintosh Blade Size 3	130mm x 30mm
2905.150.25	Orion Macintosh Blade Size 4	157mm x 30mm

Macintosh designs feature a curved blade, are inserted into the vallecula, epiglottis fold, and moved laterally to expose the laryngeal cavity and vocal cords. These are the most popular blades worldwide.

Orion Macintosh size 0 is supplied with small bulb, all other sizes with standard size.

MILLER

Product Code	Description	Measurements
2905.185.03	Orion Miller Blade Size 00	65mm x 17mm
2905.185.05	Orion Miller Blade Size 0	77mm x 18mm
2905.185.10	Orion Miller Blade Size 1	102mm x 17mm
2905.185.15	Orion Miller Blade Size 2	153mm x 19mm
2905.185.20	Orion Miller Blade Size 3	193mm x 20mm
2905.185.25	Orion Miller Blade Size 4	206mm x 20mm

Miller designs feature a straight blade, are inserted over the epiglottis and moved laterally to expose the laryngeal cavity and vocal cords. The smaller sizes 00, 0 and 1 are preferred by clinicians for paediatric and infant use.

Orion Miller sizes 00,0 and 1 are supplied with small bulbs, all other sizes with standard size.

In this brochure only our Orion Standard Conventional light system is illustrated. We also manufacture the replaceable fibre optic light guide system [Optima CLX](#), the fixed core fibre optic system, [Sirius](#) and the single use disposable system [Callisto](#). Details on all are available on separate brochures.

Standard light, conventional ISO 7376 fitting compatible with conventional fitting reusable blades.

Fully autoclaveable metal handle, covered by a 5 year guarantee or 4,000 autoclaves, whichever is sooner. See website for full terms and conditions.

Knurled handle design provides excellent grip.

Spring loaded contact pin for secure electrical connection with contacts on the Orion blades.

Clear product branding with the product code and CE located on the opposite side of the logo. The LOT number is also shown on the top of the handle.

Secure screw cap for easy access for batteries. They can be powered by dry cell batteries or easily converted to a rechargeable handle by using the Timesco R Lithium Engines

Timesco Orion handles are reusable, conventional fitting handles for use with Orion blades and are available in Medium, Small and Stubby sizes.

2905.325.20	Orion Standard Tungsten Bulbs Standard 2.8V (Box of 6)
2905.325.21	Orion Standard Tungsten Bulbs Standard 2.8V

ORION HANDLES

Product Code	Description	
2905.300.05	Orion Standard Handle Small AA, Dry Cell	147mm x 19mm
2905.300.10	Orion Standard Handle Medium C, Dry Cell	147mm x 29mm
2905.308.10	Orion Standard Handle Extra Stubby AA, Dry Cell	112mm x 32mm

TIMESCO ION-R RECHARGERS

Product Code	Description
3125.999.10	Timesco ION-R Charger (Single) Includes: Charger, power supply and both Timesco R inserts (AA and C)
3125.999.20	Timesco ION-R Charger (Dual) Includes: 2 x Chargers, 1 x power supply and 2 x each Timesco R inserts (AA and C)

Timesco ION-R Rechargers are multi voltage and are supplied with accessories for operation worldwide. For more details see our [ION-R brochure \(L.L.060/1\)](#).

Only the Timesco R Engine is inserted into the charger.

Both the small and medium Timesco R Engines can be charged in the single and double chargers.

Timesco R Engines can be fully charged in approx. 4 hours.

The colour changing LED indicates the health of the battery and the charging cycle.

Side plates can be removed to daisy chain 3 chargers together to receive power from a single power supply.

Once Timesco R Engines are fully charged the recharger will switch to a low power mode to avoid using unnecessary electricity.

TIMESCO R BATTERIES

Product Code	Description
3115.150.20	Timesco R Engine - Small (AA Size) 2.5V
3115.150.50	Timesco R Engine Medium (C Size) 2.5V

Only one battery required per handle. Timesco supply small and medium rechargeable batteries to help you create a rechargeable system. For more details see our [Timesco-R brochure \(L.L.060/1\)](#).
